OTHER SERVICES

For anaesthetics the animals should be under 14 yo and in good health, and not under treatment by another veterinary surgeon.

Animals over 10 yo may need to be checked first – PetCheck fee will be deducted from operation price.

CAT DEMATTING under sedation £35-80

ROUTINE DENTAL Cats & Rabbits scaling and basic extractions under general anaesthesia (includes rabbit incisor extraction) £50-150

PETCHECK by appointment only

I offer a check-up and advice service for all pet species

(mammals and small birds) at a set price

£15

This is not for treatment of sick or injured animals, nor for animals under treatment by another vet. It is a basic clinical examination by the veterinary surgeon, no laboratory tests will be done.

I will :Check the animal's weight and general health; examine lumps and advise whether they need treatment; check teeth and claws; examine old animals for any problems which should be treated; advise on diet and welfare issues

I can also do:

Claw clipping (beak trimming) and **anal sac emptying** £10 - £20

Housecall prices from £35 according to distance.

Minimum price would, roughly, be within Norwich Ring Road.

I can do vaccinations, PetCheck, euthanasia and claw-clipping on housecalls.

Budgie beak & claw clipping would be included in the visit charge.

I DO NOT DO TREATMENTS OTHER THAN THOSE ON THIS PRICE LIST, IF ANYTHING IS NEEDED YOU WILL BE ADVISED TO GO TO ANOTHER VETERINARY PRACTICE.

Flea and worm treatment for cats can be supplied at the time we see the cat but we cannot supply repeats. We only stock a limited range of products.
